2024-2025 Butte College Guide CSU General Education

IMPORTANT NOTE: Certification of coursework for CSU General Education will be honored provided that a course was on a college's approved CSU General Education list when it was completed. (CSU Review, May 1993)

Due to the complexity of the requirements and the potential for inappropriate course selection, students are advised to work with a Butte College counselor when developing their education plan.

CSU Transfer Admission Requirements:

To meet the California State University (CSU) transfer admission requirements, students must have all the following:

- At least 60 transferable units (transferable courses at Butte College are numbered 1-99)
- A transferable course GPA of at least 2.0
- Within the 60 transferable units, at least 30 units of General Education courses with a grade of C or better in each course
- The 30 required General Education units must include areas A1, A2, A3, and B4 with a grade of C or better in each

As admission to CSU campuses becomes more competitive, students need to understand the importance of filing their application during the priority filing period. (Consult a counselor for those dates). Completion of all lower division preparation and a strong grade point average are important to students applying to impacted schools and competitive majors. Applications and application information can be accessed at www.calstate.edu/apply.

Overview of Requirements for Completion of Bachelor's Degree:

Major

A major consists of a group of courses that emphasizes a depth of study in a particular field. Majors may require as few as 30 semester units or as many as 100 semester units. Certain majors require courses that also meet CSU GE requirements. Courses generally may be used for both purposes. Individual campuses may have limitations as to the number of courses that can be used in this way. To be as competitive as possible, students should follow the requirements for the campuses and majors they are interested in. See Assist.org for more information. Some high-unit majors have modifications to GE requirements. For more information, reference the most current catalog for the university to which you wish to transfer and consult with a Butte College counselor. Careful course planning provides the greatest opportunity for maximizing options within a bachelor's degree program.

CSU General Education (GE)

These courses offer an opportunity to broaden one's awareness, discover academic interests, and develop academic skills. The selection of courses to meet this requirement should be influenced by the major(s) and other programs you wish to consider. The California State University requires 48 units of general education coursework in most bachelor's degree programs, including a minimum of 39 lower-division (freshman-sophomore level) and a minimum of nine upper-division (junior-senior level) units. Up to nine units of lower-division General Education (with the exception of areas A1, A2, A3, and B4) may be completed at CSU after transfer. CSU students have the option of completing CSU general education requirements or the Intersegmental General Education Transfer Curriculum (IGETC). Students should consult with their Butte College counselor to determine which GE pattern is appropriate for them based on their educational goals and their transfer school's admission requirements.

Note: Courses used for CSU GE must appear on the GE guide for the academic year the course was taken. Note: The DD214 (credit for military service) may be used to satisfy Area E.

U.S. History, Constitution, and American Ideals

The CSU requires all students to complete one course each in U.S. History (#) and Government (##). These courses may also meet general education requirements but are not required for graduation at Butte College.

U.S. History – ECON 20, ECON 20H, HIST 8, HIST 10, HIST 18, HIST 26

Government – POS 2, POS 12

U.S. Diversity and Global Cultures

CSU, Chico requires all students to complete one course each in the U.S. Diversity (*) and Global Cultures (**). These courses may also meet General Education requirements but are not required for graduation at Butte College.

Note: Other ncourses that meet the CSU, Chico U.S. Diversity requirement include AJ 2, CDF 57, and CDF 59

Electives

The number of elective units is dependent on the units required by a student's major. Electives can be used to complete a second major, a minor, credential requirements, or other personal education goals.

CSU General Education Certification List 2024-2025
