achieve your
academic goals.

Academic Advising

The College of Science undergraduate advisors provide students with guidance about their degree requirements; have information about and access to opportunities beyond the classroom including research, internships, and career pathways; get help navigating our systems; and build belonging and STEM identity in a supportive and inclusive community.

We can help ALL students in the College of Science find answers to their questions.

- Comprehensive major advising.
- Support connecting with major departments and faculty advisors.
- Assistance in thoroughly understanding requirements, planning classes, and completing necessary paperwork.
- Assistance with registration forms and procedures, such as late add, late drop, late withdrawal petitions, and special registration petitions.

We provide advising and guidance to students in the following departments

- Biology
- Chemistry / Biochemistry
- Computer Science
- Engineering
- Earth & Environmental Science
- Mathematics
- Nursing
- Physics
- Psychology
- Public Health
- Statistics / Biostatistics
